

## **(Junior) IT-Consultant (w/m/d)**

**ASTRAN Business Consulting GmbH is a young management service provider based in the academic hub of Kiel. Our interdisciplinary team offers our clients high-quality and innovative services. Our range of services in the mobility sector is rounded off by the RMR Rail Market Research platform. Here ASTRAN distributes studies and informs about events around the rail market.**

### **Your tasks**

- You are involved in consulting projects of different sizes and advise clients from industry, the energy and railway sectors together with your team.
- You manage the project documentation and reporting, create status reports, presentations and decision papers
- You create strategies, concepts and prototypes for innovative digital solutions for our customers as part of the team
- You monitor the progress of the project, develop measures to ensure successful project realisation and manage implementation processes
- As part of the strategy consulting, you support our team in market, competition and customer analysis
- You will support our support team on site with IT and electrotechnical know-how.

### **What we want from you**

- You have already completed or will soon complete your studies in business informatics or industrial engineering or a comparable field with a focus on electrical engineering or information technology.
- You have knowledge of the IT environment and the common Windows operating systems as well as initial experience in software development.
- You have knowledge of common processes and methods of project management and the use of project management tools.
- You have the ability to combine your business knowledge and your broad PM know-how, to understand complex interrelationships and to transform them into innovative solutions.
- Strong communication skills and a self-confident appearance are just as much a part of your strengths as very good analytical skills and the ability to work in a team.
- The flexibility and mobility required in a consulting environment are a matter of course for you.
- Good language skills in English and German round off your profile.

## What we can offer you

- 30 days of holiday per year, plus flexible arrangements for Christmas Eve and New Year's Eve
- flexible working hours and working time models for a better work-life balance as well as flexible working locations
- transparent remuneration as well as company pension scheme and attractive bonus agreements
- Comprehensive further training - our know-how for your personal development
- Modern workplaces and team events on the Baltic Sea
- Catering with water, coffee, tea and fresh fruit
- You travel 1st class on business trips.
